

RON HAZELTON'S HOUSECALLS
EPISODE SYNOPSIS
SEASON 21 (2019-2020)

Episode #2007

This week on HouseCalls Ron installs a wood-look plank ceiling in a newly remodeled home near the coast, to give it a warmer, beachy feel. Then he installs a state-of-the-art kitchen window that's both good looking and energy efficient. That's this week on HouseCalls.

Episode #2008

This week on HouseCalls, Ron installs a state-of-the-art glass sliding door that's energy efficient and has many innovative design options. Then he'll take a look at a whole house wireless lighting system that offers both convenience and security. That's this week on HouseCalls.

Episode #2009

This week on HouseCalls Ron shows us one of the easiest and least expensive ways to get more living space - by turning your basement into a useable living space. Then he demonstrates an effective way to create a self-measuring bucket. That's this week on HouseCalls.

Episode #2010

This week on Housecalls, Ron builds an arbor that's perfect as the entrance to the garden or for just plain sitting under. Then he'll share four ways to cut multiple pieces of lumber to precisely the same length. And finally, he'll fix a broken china dish using Cyanoacrylate glue. That's this week on HouseCalls.

EPISODE #2013

This week on HouseCalls, Ron crafts some display shelves that appear to float on the wall without any visible means of support. Then he'll demonstrate several ways to cut several pieces of wood to the same length. And finally, a technique for drilling through rod objects like pipe and dowels. That's this week on HouseCalls.

EPISODE #2017

This week on HouseCalls, Ron puts the whole family to work building a custom organizer for a child's closet. Then, he constructs a circular wooden bench around a favorite backyard tree. Finally, he demonstrates one of the best methods he knows of for hanging pictures and mirrors. That's this week on HouseCalls.

EPISODE # 2101

This week on HouseCalls, Ron uses the newest tool in his shop – a 3D printer – to make a wall shelf. We'll see just how these amazing machines work and what they're capable of. Then he replaces an overhead fluorescent light fixture and

finally, he'll add a pickled white-wash finish to a small corner cabinet. That's this week on HouseCalls.

EPISODE # 2102

This week on HouseCalls, Ron installs cove lighting using lightweight foam crown molding and inexpensive LED light tape and the results are amazing! Then he installs an irrigation system that delivers water directly to the root system and finally, he demonstrates how to apply window film to keep sunlight from fading your draperies and upholstery. That's this week on Housecalls.

EPISODE # 2103

This week on HouseCalls, we're going to see how to add the elegance of crown molding to any room, in as little as a couple of hours - it just couldn't be any simpler. Then Ron installs some do-it-yourself rain gutters and finally, tops it all off by putting in a fireplace gas log set that's ultra-realistic and push-button convenient. That's this week on HouseCalls.

EPISODE # 2104

This week on HouseCalls, Ron turns an ugly garage floor into something that looks like it belongs in a new car showroom. Then he turns an existing closet space into a storage and organization system that can store a good deal more. And finally, he'll show you how to make your own compass. That's this week on HouseCalls.

EPISODE # 2105

This week on HouseCalls, Ron revives a weather-worn Adirondack chair using a finish that's designed to stand up to the rigors of outdoor life. Then, he installs a maintenance-free vinyl fence and finally, he builds a toy chest that has ample room for all of a child's favorite playthings. That's this week on HouseCalls.
